- I) Introductions
 - 1) Committee members present introduced themselves
 - 2) IAPMO ES Staff introduced themselves
- II) Committee discussion and review the revised Evaluation Criteria EC 005-2010 “Wood Structural Panels with Factory-Applied Fire-Retardant Coatings.”
 - 1) ES Chair Kevin Shear introduced a change to the purpose and scope, sections 1.1 and 1.2.

Original:

1.1 This criteria prescribes the evaluation of the Manufactured Product for the in Section 1.2, as the IBC, IRC and associated documents do not specify testing methodology and acceptance conditions for such products.

1.2 Scope: The Manufactured Product is used as roof sheathing, wall sheathing, and interior finish, a thermal barrier or a component of a vertical fire-resistance –rated assembly as described below.

Proposed Amended:

1.1: The criterion prescribes the evaluation guidelines for a Manufactured Product for the following items or uses described in section 1.2 as the IBC, IRC and associated documents do not specify testing methodology and acceptance conditions for such products.

1.2: The Manufactured Product may be used in accordance with sections 1.2.1 thru 1.2.6 provided the product complies with Test and Performance Requirements of section 5.0 of this criteria.

2) A motion to accept the changed was made by Tom Hosey, seconded by Steve Carmichael. Vote 7-0.

- III) Committee voting on revised Evaluation Criteria for “Wood Structural Panels with Factory-Applied Fire-Retardant Coatings” with new amended language reference above.
 - 1) A motion to adopted EC 005-2010 “Wood Structural Panels with Factory-Applied Fire-Retardant Coatings” was made by Tom Hosey and Seconded by Steve Carmichael. Vote 7-0.
- IV) Meeting Adjourned
