IAPMO ES Reports Reach 41 Municipalities

Ontario, Calif. (May 9, 2008) — In less than ten weeks, evaluation reports completed by IAPMO ES on behalf of several clients have facilitated the issue of multiple building permits within 41 separate municipalities, including San Diego County, Riverside County, Orange County, San Diego and Anaheim. No jurisdiction reviewing an IAPMO ES report has found it to be in any way deficient.

The reports have produced immediate sales for IAPMO ES clients, with permits successfully issued in a variety of jurisdictions in the states of California and Nevada. Contractors have reported back to the manufacturers that the IAPMO ES brand lends significant credibility among Authorities Having Jurisdiction.

The reports were each completed in an expedited fashion, removing delays in the product evaluation process from the manufacturers' critical path.

"Ultimately, the bottom line for any of our clients is sales," said Amir Zamanian, director of IAPMO ES. "Armed with our reports, our clients are already selling their products, while our competitors' time line might still have them waiting. We've given them a readily accepted report in less time, and all of these building permits demonstrate the clear advantage."

IAPMO ES places a premium on open lines of communication with each customer and an aggressive and immediate response to any need or concern that arises.

"Our clients' success is the only true measure of our own success," Zamanian said. "Meeting each client's needs on a daily basis is how we know we are doing our jobs."

IAPMO ES is accredited by the American National Standards Institute (ANSI) per the ISO/IEC Guide 65, General Requirements for Bodies Operating Product Certification Systems. This means that building products, materials and designs evaluated by IAPMO ES are trusted by contractors, inspectors, officials and Authorities Having Jurisdiction. Compliance with section 1703 of the International Building Code (IBC) and immediate approval of products is assured.

For more information on IAPMO ES, direct your Web browser to www.iapmoes.org or contact Amir Zamanian at (909) 230-5533 or amir.zamanian@iapmoes.org.

*IAPMO ES evaluates building products, materials and designs according to all applicable codes and standards, ensuring continuous compliance to such documents.
IAPMO ES is part of The IAPMO Group's family of companies.*
